Medical Insurance | BlueCross BlueShield

Health Maintenance Organization (HMO)

HMOs give you access to a network of doctors and hospitals, but restrict services to in-network providers only. HMO participants must choose a contracting medical group and primary care physician (PCP) to provide or coordinate their healthcare services. If you require specialty care, an outpatient procedure, or a hospitalization, you must receive a referral from your PCP. There are no out-of-network benefits.

High Deductible Health Plan (HDHP) with Health Savings Account (HSA)

The HDHP is a PPO plan that provides health care benefits after the applicable deductible has been met. You pay the full cost of services prior to meeting your annual deductible with the exception of preventive care. Once the deductible is met, services will be covered by the plan coinsurance until the annual out-of-pocket maximum is met. If you have other family members on the plan, the overall family deductible must be met before the plan begins to pay. Services are covered at 100% once the out-of-pocket maximum is met.

A Health Savings Account (HSA) is a bank account paired with your HDHP allowing you to set aside money on a tax-free basis to pay your out-of-pocket qualified medical, dental, and vision expenses throughout the year or in the future. You own the money in your HSA account and it is yours to keep – even when you change plans or retire. The funds roll over from year to year to be used when needed.

- No out-of-pocket costs apply - these exams are fully covered *as long as your physician codes them as preventive*.

Prescription Drugs

- Ask your doctor if there's a generic version of any medication you're currently taking or being prescribed.
- Take advantage of the Prescription Savings Programs at major retailers.
- Ask about free samples from your doctor and/or manufacturer rebates.

High Cost Scans, X-Rays & Tests

- MRI, PET scans, CT scans, etc. are less costly at in-network free-standing imaging centers than at hospitals.
- When possible, compare cost options prior to scheduling your necessary services.

Emergency Room Alternatives

The ER is a costly experience for issues that aren't true emergencies. Below are alternatives that can offer quick care at a more affordable cost.

- Doctor's office: for non-life threatening symptoms, call and let them know your symptoms require immediate attention.
- Convenient Care Clinics: use when you don't have a primary doctor or can't get an appointment. Good for fever, sore throat/strep, coughs/congestion, sports physicals, UTIs, etc. Visit cvs.com or walgreens.com to find a clinic near you.
- Urgent Care: less costly than the ER and can treat sprains/strains, minor breaks, mild asthma, minor infections, rashes, small cuts, burns, etc.

Dental Insurance | BlueCross BlueShield

Dental Preferred Provider Organization (DPPO)

The DPPO allows the flexibility to use any dentist, in or out-of-network. Staying in-network will allow your annual maximum to last longer. If you visit a dentist out-of-network, you may be responsible for paying the bill at the time of service and receiving reimbursement later.

Dental coverage focuses on preventive and diagnostic procedures in an effort to avoid more expensive services associated with dental disease and surgery. The type of service or procedure received determines the amount of coverage for each visit. Each type of service fits into a class of services according to complexity and cost. We recommend you request a predetermination of benefits for major services.
